

varioSCAN II

Best system performance in every mounting position

varioSCAN II

The compact **varioSCAN** series dynamically shifts the laser focus along the Z-axis with high precision.

The extensively updated **varioSCAN II** will be available mid-2020, offering improved functionality and a new design.

Key Features

- **Orientation independence** – best system performance in any installed position
- **Cleanliness-optimized product design** via revised opto-mechanics
- **Drop-in replacement** for current **varioSCAN** product series
- **varioSCAN II 40 / varioSCAN_{de} II 40i:**
Enlarged maximum entrance aperture: 18 mm
